Subject: QAPP for Bridgeton Dust investigation
QAPP for Pre-CERCLIS Screening at Bridgeton Dust Site.pdf

Hey Dave,

See the attached QAPP for the pending investigation in Spanish Village next week.

The Region 7 QA shop is currently reviewing so there may be some minor edits before it's finalized.

I have sent this out to the larger group assisting EPA in developing this.

I am trying to arrange a call for Wednesday to here from the external reviewers.

Let me know if there are any question,

Tom
